Lesson:

God's love shines through in many ways and in many different forms. Sometimes we are so busy that we forget to stop and see all the beautiful gifts are all around us and this is something that as we grow older, we do less and less. But God's love for us is waiting for us always. His love was so great that he gave his son to cure us of all our wrong doings and offers us everlasting life. God choosing to give his son life to save us was his way of showing us how much he loves us. This gift of forgiveness can also be called grace. Grace is when you receive something that that you didn't earn, a gift that may be unexpected and forever. God's grace shines through every day that we wake up and get to live another day. Now after you hang your stained glass and see the light shining through, think of it as God's grace shining through.
